CPSE/CSE Parent - Student Report Worksheet:

Student's Name: ____________________  School: ______________________________

Completed by: ____________________  Date of CPSE/CSE Meeting: ______________

An effective IEP is developed based on accurate comprehensive information about the student. Goals, services, and an individualized program are built upon the identified strengths, needs, and functioning levels of the student that are discussed and determined at the CPSE/CSE meeting by the team. The parents – and student - are members of the committee and information they provide is as critical as that of any other member. Take some time to consider the following and submit the information to your CPSE/CSE at or before your child's meeting. Include your child's own input about the program if appropriate.

Parent Report:
1. My child's strengths are: __________________________________________________

2. I have the following goals for my child for the coming year:
   Academic: ______________________________________________________________
   Developmental: _________________________________________________________
   Functional: _____________________________________________________________
   Social: __________________________________________________________________
   Physical: __________________________________________________________________
   Transition(Preschool or Post-secondary): _______________________________________

3. The components of the program that have worked for my child this year: ______________
