Clarification for Survey Question #4

July 24, 2020

Dear Hastings Families,

Last evening, three surveys, one for each school, were shared with you seeking your feedback about the learning and instructional models presented at Tuesday’s, July 21st, community forum. The surveys are referenced in this letter. Question #4 What is your current plan for the 2020-2021 school year? provided choices available that focused on alternatives to returning to the school campus. One choice not included was the option about being on campus. The purpose for question #4 is to learn about the other plans families may be considering that does not involve being on campus for in-person learning. As pointed out on slides 12-21 of the presentation shared at the community forum, school reopening plans must reflect learning and instructional models for the following scenarios: (1) when all children are on the campus, (2) when all children are learning from home, and (3) when all children cannot be on campus at once.

I hope that this explanation helps to clarify the intention of survey question #4.

Thank you for completing a survey for the school(s) that your child/children attend. A reminder that the survey closes on Tuesday, July 28th.

If you have any additional questions, please feel free to contact me or a school district administrator.

Sincerely,

Valerie Henning-Piedmonte
