

Name _____

Date _____

Match the math stories to the number sentences that tell the story. Make a math drawing to solve.

1.

There are 10 flowers in a vase. 6 are red. The rest are yellow. How many are yellow?

6 + 3 = 9

9 - 3 = 6

There are 9 apples in a basket. 6 are red. The rest are green. How many are green?

3 + 7 = 10

10 - 7 = 3

Kate has her fingernails painted. 3 have designs. The rest are plain. How many are plain?

6 + 4 = 10

10 - 6 = 4

Name _____ Date _____

Show the subtraction. If you want, use a 5-groups drawing for each problem.

$9 - 1 = \underline{8}$

$9 - 0 = \underline{9}$

$6 - \underline{0} = 6$

$6 = 7 - \underline{1}$

Show the subtraction. If you want, use a 5-groups drawing like the model for each problem.

$9 - \underline{0} = 9$

$8 = 8 - \underline{0}$

$10 - \underline{1} = 9$

$7 - \underline{0} = 7$

Name _____

Date _____

Cross off to subtract.

$10 - 10 = \underline{0}$

$9 - 8 = \underline{1}$

Make a 5-group drawing like the ones above. Show the subtraction.

$1 = \underline{8} - 7$

$8 - \underline{8} = 0$

$0 = \underline{7} - 7$

$6 - \underline{5} = 1$

Make a 5-groups drawing like the model for each problem. Show the subtraction.

$9 - \underline{8} = 1$

$0 = 8 - \underline{8}$

Name _____

Date _____

Solve the sets of number sentences. Write a related number sentence that would have the same number bond. Look for "easy groups" to cross off.

$7 - 5 = \underline{2}$
 $\underline{7} - \underline{2} = \underline{5}$

$6 - 5 = \underline{1}$
 $\underline{6} - \underline{1} = \underline{5}$

$9 - \underline{5} = 4$
 $\underline{9} - \underline{4} = \underline{5}$

Subtract. Make a math drawing, like the ones above, for each. Write a number bond.

Solve. Visualize 5-groups to help you.

(a) $9 - \underline{5} = 4$

(b) $\underline{10} - 5 = 5$

(c) $8 - \underline{3} = 5$

(d) $\underline{7} - 5 = 2$

(e) $\underline{8} - 5 = 3$

(f) $\underline{9} - 4 = 5$
