November 14, 2023

Dear Hastings Community,

We in the Hastings School District are excited to host solar arrays on our roofs at both the Farragut Complex and Hillside Elementary School. Dr. McKersie has featured this significant partnership with the Village ([see October 6, 2023 Friday Letter](#)). The electricity generated by the array is sold at a discount to the surrounding community through community solar subscriptions, while we as a host also benefit by collecting annual rental of our space.

We are now moving into the installation phase of the project. Starting in December, we will have several installers on our roofs and certain areas around our buildings reserved for equipment and materials. We are working closely with school principals and G&S Solar to ensure that our daily education of our kids is not interrupted.

If there are any concerns or questions, please call the Buildings and Grounds Department at 914-478-6220. We look forward to the project's completion and to reducing energy consumption in Hastings by using natural resources.

Sincerely,

*Joseph Martorana*

Joseph Martorana
