November 3, 2021

Dear Hastings Families and Staff:

I am writing to update you about vaccinations for students ages 5-11. We had a large response from this week's survey, with over 580 students listed as interested in being vaccinated through a combined clinic with Ardlsey, Dobbs Ferry and/or Irvington School Districts (sponsored by the Westchester County Department of Health). We are now coordinating with the WCDOH and our fellow districts on the logistics of a combined clinic with one or more districts. We anticipate this may take a couple of weeks.

In the meantime, families wishing to have their children (ages 5-11) vaccinated should avail themselves of any source of their choosing. This may include their personal physician, pharmacies or clinics sponsored by the WCDOH or other medical/public health agencies.

We will move as quickly as possible on establishing a combined clinic with one or more of the Quad Village School Districts. As you would understand, we have to plan so the clinic is effective and efficient for all involved.

Please stay tuned for additional updates.

Be well.

Bill
